ACADEMIC DETAILS

COURSE	INSTITUTE/COLLEGE	BOARD/UNIVERSITY	SCORE	YEAR
CLASS XII	Nowrosjee Wadia College	HSC	92.31 %	2018
CLASS X	Rosary School	SSC	96.4 %	2016

Subjects / Electives	Honors (Advanced Data Structures), ILOE Finance
Technical Proficiency	HTML, C Programming, Python3, Django, Bootstrap, Data Structures

PROJECTS

Musify - Django   Jul 2020 - Jul 2020
Users can create playlists, add songs, copy songs from other playlists, transfer songs to other playlists.For adding songs users need to upload an audio file.They can change the visibility of a playlist or any song by selecting either of these options: public, private and followers-only.Users can search for other users, view their profile and follow them.
https://github.com/vkonde21/musifyapp

Watch Rental App - Django   May 2020 - Jun 2020
Users can rent a watch for a few days. They have to select a particular watch or they can add watches to the cart and check the availability of those watches between the selected dates. If the watches are available then users can place their order. While looking for watches they can also read the reviews.
Features: Login page, filters, product details, add to cart option, viewing order status, checking the availability of watch between selected dates, cancellation of an order(within 30 minutes of order), writing a review.
https://github.com/vkonde21/watch_rental_app

Linux Sort Command - Data Structures and Algorithms   Oct 2019 - Nov 2019
This command can be used to sort files of any size (even files having a size greater than RAM). A file having size more than the RAM is sorted using external sorting algorithm.
Data Structure: Heap, Arrays
Language: C
